

Quick Adapt

✓ Avoid the high costs of a complete rink reconstruction

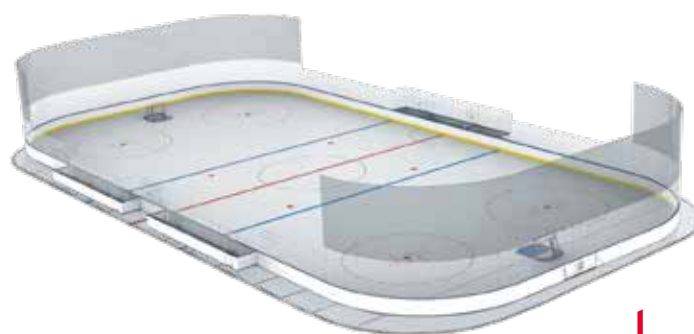

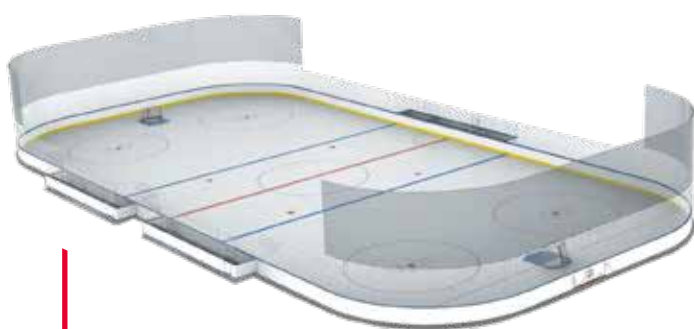

✓ Comply with IIHF regulations to host A-League championships

✓ Switch flexibly between the two sizes with one rink

60x30 m
EU-SIZE

56x26 m*
NHL-SIZE

ONE SYSTEM, MANY SIZES

The innovative, patented QuickAdapt System is the cost-effective alternative to a complete rebuilding to reduce your ice rink to the NHL size. It moves the dasher board with the help of hydraulic cylinders reducing the size of the ice rink by 4 meters within 3 hours only.

*Size can be set to: 60x30, 60x28, 60x26, 58x28, 56x26 m
